

Accessing Novell Drives Using Mac OS X

You can access the Novell drives (U:\, P:\, S:\) from Mac OS X using the AFP protocol.

Please note: in order to access these drives using this method from off-campus, you **MUST** run VPN first (<http://west.wvu.edu/atus/helpdesk/macvpn.shtml>).

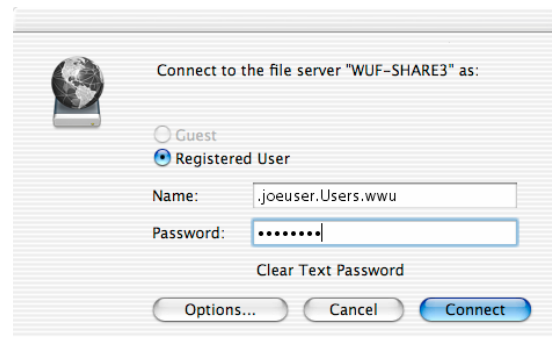

1. In Finder, Select **Go > Connect To Server**.
2. Browse to the server, or type in the server address and click the **Connect** button.
Server Addresses:
 - U:\ drive: Your U drive could be on one of 6 different servers. Please contact the ATUS Help Desk at x3333 if you don't know which server your U drive is on:
 - Students:
 - **wuf-stu1.wuf.wvu.edu**
 - **wuf-stu2.wuf.wvu.edu**
 - **wuf-stu3.wuf.wvu.edu**
 - Faculty/Staff:
 - **wuf-user1.wuf.wvu.edu**
 - **wuf-user2.wuf.wvu.edu**
 - **wuf-user3.wuf.wvu.edu**
 - P:\ drive: **wuf-facshare.wuf.wvu.edu**
 - S:\ drive: **wuf-class1.wuf.wvu.edu**
 - Other drives: Please contact the ATUS Help Desk for server address.

3. Enter your Novell "Full Contextual Login" and universal password. Logins will be in the form:

- Students: **.username.students.wvu**
- Staff/Faculty: **.username.users.wvu**

Click the **Connect** button to continue.

**Some Faculty/Staff may have a different Full Contextual Logins. Please call the ATUS Help Desk if you have issues figuring out our contextual login.*

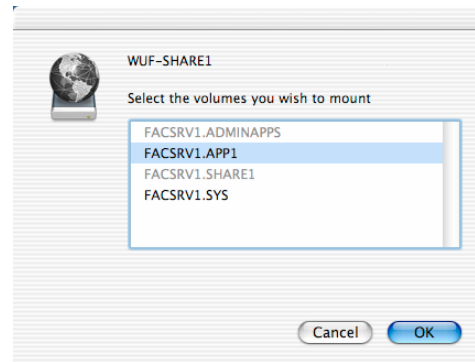

This publication is available in alternate formats upon request.

4. You can select one or more volumes from the server in the next window. You can select multiple volumes at once by holding down the Apple key when selecting each. Click the **OK** button to finish.

- U:\ drive:
 - Students: **Stu1, Stu2, or Stu3**
 - Faculty/Staff: **User1, User2, or User3**
- P:\ drive: **Facshare**
- S:\ drive: **Class1**
- Other drives: Please contact the ATUS Help Desk.

5. A shortcut to the selected volume(s) will be created on your desktop as well as in the top level of Finder.

If you have any questions, please contact the ATUS Help Desk at 650-3333 or helpdesk@wwu.edu.
